PROJECT DESCRIPTION (Describe what you plan to accomplish to raise the beverage container recycling rate. State one or more quantifiable targets or objectives to be achieved. (See examples on DOC website.)

By implementing beverage container recycling at all city parks, we hope to divert 10 percent more recyclable material from our landfill than last year.

PROJECT EVALUATION (Describe the data you will track to evaluate progress towards your goal. Include the baseline data you will use for comparison.) (See examples on DOC website.)

We will track our volume monthly by material type and measure our progress by comparing the totals to last year.

2001/2002 and 2002/2003 EVALUATION: Briefly describe the measurable outcomes achieved after implementing funded activities in fiscal year 2001/2002 and 2002/2003. (Example: 1) The volume of beverage containers recycled as measured by pre/post tonnage reports was increased by 15% as compared to the previous year. 2) Beverage container recycling awareness as measured by pre/post consumer surveys was increased by 25% due to our outreach efforts at sports venues.)

The number of beverage containers recycled as measured by pre/post tonnage reports (by material type) was increased by 10% as compared to the previous year.

Did your city/county prohibit the siting of a supermarket site, cause a supermarket site to close its business and/or adopt a land use policy that restricts or prohibits the siting of a supermarket site within its jurisdiction since 1/1/2000? (Provide a copy of any current policy or ordinance relating to beverage container recycling.)
